

The model for Advocacy Case Planning to be implemented by DASP staff is based on The VALID Advocacy Method by Kevin Stone AM.

The Victorian Advocacy League for Individuals with Disability practices a range of Advocacy on behalf of, with or alongside and through the provision of support to people with a disability.

Save the Children elected the VALID Advocacy Method because it is a human-rights, strengths based, person-centred model. The 6 Advocacy Steps, and triggered processes within, provide a comprehensive and ethical framework for advocacy.
